SYNOPSIS

Civil engineering is one of the oldest engineering disciplines and it is everything you see that's been built around us. The kinds of things we take for granted but would find very hard to live without. Civil Engineer must also find ways to deliver the infrastructure needed when there's little money in the pot to pay for it. Put simply, civil engineers have to come up with solutions to complex problems and implement them; they literally shape the world we live in.

Objectives:-

- 1) To provide overview of what is civil engineering profession and why is it such as exciting profession
- 2) To highlight on the diversity, working environment and needs of civil engineering profession
- 3) To highlight the academic requirements needed to study in civil engineering courses.
